

**HERE'S WHAT SOME  
OF OUR USERS ARE  
SAYING**

*I can bill my Skip accounts on a regular basis and send them a professional looking Statement. Collections have more than doubled on accounts that I had previously written off! **Texas***

*Your feature rich program is wonderful. Thanks for the great job! **Virginia***

*As a district manager for a major tool company, I strongly recommend your program to my dealers. They have better control of their business and spend less time doing paperwork and orders. **Oklahoma***

*I call for support and they answer the phone, and resolve my issues promptly. Even if they are busy, I receive a callback very quickly. I'm glad I made the switch! **Florida***

*I'm glad we have a choice in software as an independent tool dealer. I have complete control of my business and "Big Brother" from the franchise companies don't get my info. **Georgia***

*I've never touched a computer before I decided to use MM1. This is easy to understand and the support staff is great. **Pennsylvania***

***Our software is EASY to use! We have designed the MM1 software for the computer novice or advanced user.***
